Sample Evaluation Report

To Whom It May Concern:

Educational Credential Evaluation

For: **Mr. Patel Kumar**

From: **India**

Purpose: **Immigration**

Conclusion: Mr. Kumar's Bachelor of Engineering from the University of Bombay is equivalent to a bachelor's degree in Civil Engineering offered by an accredited university in the United States.

A. Undergraduate Education

Mr. Kumar received a Bachelor of Engineering from the University of Bombay in India in December 1994 after successfully completing the examination in May 1994. Mr. Kumar pursued a four-year full-time course of study with a major in Civil Engineering and was placed in the First Class. Admission to the University of Bombay requires completing twelve years of pre-university education and success on an admissions examination. The University of Bombay is comparable to an accredited university in the United States. Mr. Kumar's Bachelor of Engineering from the University of Bombay is equivalent to a bachelor's degree in Engineering offered by an accredited university in the United States.

B. Evidentiary Basis of Evaluation

The Knowledge Company's evaluators have reviewed only the materials submitted by the client. These materials are:

1. Copy of Mr. Kumar's Bachelor of Engineering from the University of Bombay (in original language and English translation)
2. Copies of Mr. Kumar's Statements of Marks from the University of Bombay (in English)

The Knowledge Company cannot attest to the original documents or their copies. We have drawn on standard professional and scholarly sources to inform our professional judgment as described above. The Knowledge Company does not accept any responsibility or liability for the use made of this advice by any evaluating agency or representations made by the client apart from the advice offered. The amount of credit from practical training (e.g. clinical internship, practicum, fieldwork, cooperative education) that can be counted toward an undergraduate major in American universities varies by discipline and by institution. However, The Knowledge Company does not distinguish credit-bearing classroom study from credit-bearing practical training in assessing the academic equivalency of foreign post-secondary programs for immigration purposes.

Respectfully Submitted on Behalf of Mr. Kumar:

The Knowledge Company
